Distribution Performance Solutions

Virtual Improvements Project (VIP)

VIP Goal:

Our goal is to help Clients develop the most appropriate path forward to improve distribution operations and meet critical business needs. Examples include:

- Improving Productivity, Cycle Time, and Speed
- Delivering on ever-changing Client / Market Demands & Customer Goals
- Reducing Operating costs

VIP Approach & Deliverables:

Our proven approach is consistent, repeatable, and has delivered meaningful value to all Clients in multiple industries. DPS will:

- Better understand your goals and calculate the value of delivering on those goals
- Identify unique requirements & collect business data
- Analyze the data / alternatives and develop the right solution set for your specific requirements
- Select the best alternatives and develop the most appropriate solution(s) – based on factors above
 - Engineer the Solution
 - Develop the Description of Operations (DOO)
 - Estimate Budgets (Rough Order of Magnitude)
- Provide the Solution Plan Summary & Deliverables which includes:
 - Description of the right solution including drawings
 - High-Level Implementation plan, including detailed schedule
 - ROI & Business case development
 - Statement of Work to execute on the plan
